Our Features

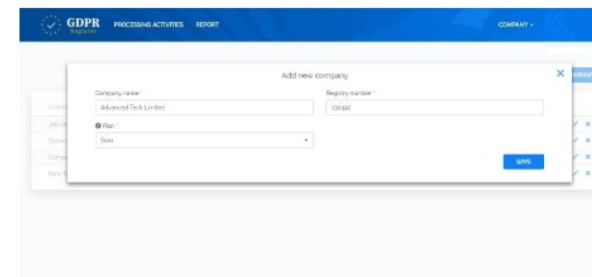

Ready-to-use Templates for Processing Activities

Use predefined templates for most common activities such as Payroll, Customer, Billing and more. Define and edit your own templates if necessary.

Reporting to the Data Protection Agency

Provide direct access or send a report to your local Data Protection Agency (DPA).

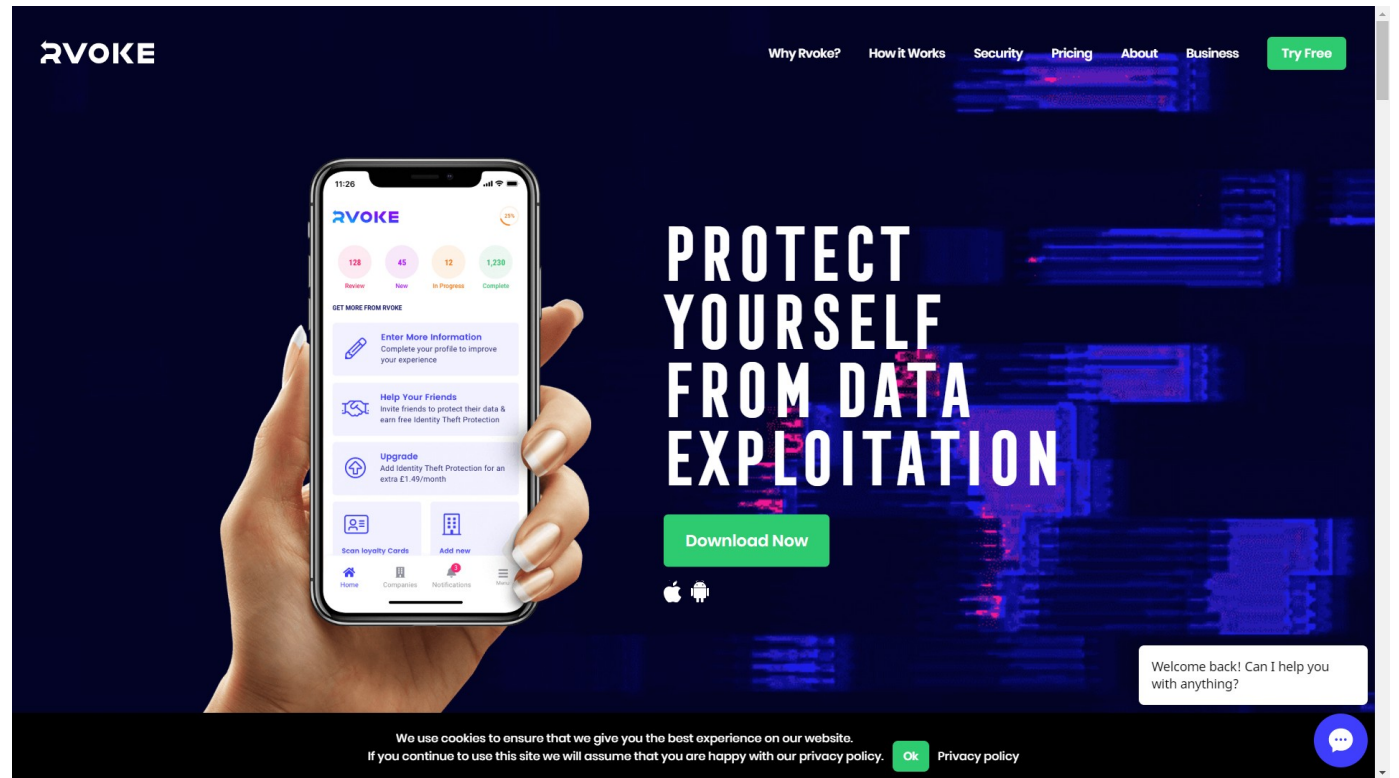

Multi Company and Multi User

Handle multiple users and multiple companies based on your needs.

RVOKE

The image shows a landing page for Rvoke, a mobile application designed for data protection. The page features a dark blue background with a grid of server racks. On the left, a hand holds a smartphone displaying the Rvoke app interface. The app screen shows a progress bar with four stages: Review (128), New (45), In Progress (12), and Complete (1,238). Below this, there are three main sections: 'Enter More Information' (Complete your profile to improve your experience), 'Help Your Friends' (Invite friends to protect their data & earn free Identity Theft Protection), and 'Upgrade' (Add Identity Theft Protection for an extra £1.49/month). At the bottom of the app screen, there are buttons for 'Scan loyalty Cards' and 'Add new'. The website header includes the Rvoke logo, navigation links for 'Why Rvoke?', 'How it Works', 'Security', 'Pricing', 'About', and 'Business', and a 'Try Free' button. The main headline reads 'PROTECT YOURSELF FROM DATA EXPLOITATION' in large white letters. Below the headline is a 'Download Now' button and icons for the App Store and Google Play. A chatbot bubble in the bottom right corner says 'Welcome back! Can I help you with anything?'. At the very bottom, a cookie consent banner states: 'We use cookies to ensure that we give you the best experience on our website. If you continue to use this site we will assume that you are happy with our privacy policy.' with 'Ok' and 'Privacy policy' buttons.

Quickly and easily manage your data requests in bulk, saving you stress, time and money.

MANAGE 1,000S OF COMPANIES

Welcome back! Can I help you with anything?

Delete Your Historical Data

Rvoke allows you to request that historic data is deleted. For example, previous bookings or purchases

Rvoke helps you to reduce your digital footprint. You can request that companies delete historic personal data, including historical bookings or previous purchases, if you no longer want them to have this data.

Delete All Data Held on You

Welcome back! Can I help you with anything?

private key stored on your phone. Companies must act on your request within 30 days, confirming that your data has been deleted.

And so much more...

With so many companies sharing data, it's impossible to know who holds personal information about you.

- ✓ Rvoke allows you to contact companies in bulk (over 10,000+).
- ✓ Each company has 30 days to respond under the GDPR*.
- ✓ Rvoke gives you full visibility and control of what to do with that information.
- ✓ Easy to use app helps you decide who holds what.
- ✓ Retrieve, Review and/or Delete.
